

# KEN CHARLES I. BESA

kencharlesbesa27@gmail.com • 09292369556 • Cagayan de Oro City, Philippines

## EXPERIENCE

---

### Data Annotator

2020 - 2025

*Remotask*

- \* Precisely annotated complex 3D LiDAR datasets, segmenting and classifying diverse objects including vehicles, pedestrians, and traffic signals for AI training.
- \* Worked across multiple engagements (Jun–Dec 2020, May–Sep 2024, Nov–Dec 2025).

### Web Developer

March - December 2025

*USTP - Registrar*

- \* Engineered the frontend for an automated digital system, optimizing the process for student document requests.

## PROJECTS

---

### Hanap Web App

<https://github.com/ken122704/Hanap>

*React, JavaScript, Firebase*

- \* Engineered a secure, cloud-based masterlist and role management system, to centralize and organize member records, significantly improving data accessibility and security.

### ResuMake

<https://github.com/ken122704/ResuMake>

*Next.js, React, Typescript, Supabase*

- \* Engineered a modern, full-stack web application, ResuMake, empowering job seekers and tech graduates to craft professional, ATS-optimized resumes.
- \* Integrated Google's Gemini AI to instantly transform rough notes into powerful, professional bullet points, significantly enhancing content generation efficiency.

### Genesis

<https://github.com/towtu/genesis-frontend>

*React, Typescript, Django*

- \* Engineered and implemented key front-end components for a robust todo list application.

### IRequest

<https://github.com/pendonj14/iRequest>

*React, Javascript, Django*

- \* Engineered responsive and intuitive frontend components for a web application, streamlining the online document request process for the USTP-CDO registrar.

### LocatR

<https://github.com/wency01x/StudentRecordLocatorSystem>

*Python, CustomTkinter, SQLite*

- \* Developed key frontend components for a desktop application that manages student data and location tracking, featuring add, edit, delete, and search functionalities.

### AI Knowledge-Based FB Chat Bot

*n8n*

- \* Engineered and deployed an end-to-end AI automation solution for a Facebook Page chatbot, integrating a custom knowledge base.

### AI Voice Receptionist

*n8n*

- \* Engineered and deployed a conversational AI system handling inbound/outbound calls.

## EDUCATION

---

### University of Science and Technology of Southern Philippines

2023 - Present

*B.S Computer Science*

## SKILLS

---

HTML, CSS, JavaScript, TypeScript, React, Firebase, Supabase, Node.js, Zapier, Make, n8n, GoHighLevel
